PLAY SPIN THE WHEEL!

It's a pull-tab game that is played along with your paddlewheel, bingo cage or the flare itself.

MULTIPLE WINNERS ON ONE SPIN!

It's simple to play. Sell all 98 tickets for \$2 a piece. Players can win one of two ways: either they get instant \$2 winners just like on a pull-tab, or they win the larger prizes — \$75, \$25, or \$10 — after the wheel has been spun. The wheel determines what the winning number is. For example, let's say you spin the wheel, and it lands on number 7. Customers who are holding the red number 7, blue number 7 and green number 7 tickets win the prize amount that matches their prize color. There are thirty Red, thirty Blue, thirty Green hold tickets and 8 \$2 instant winners in each game. Every customer gets either a qualifying number for a chance at the larger prizes or a small instant winner.

OTHER WAYS TO PLAY

To play with a bingo cage or a machine rather than a paddlewheel, the caller announces the game will be played using the cage or machine as the selection device. After the caller verifies Balls 1-75 are all in the cage or machine, the caller draws a ball out. If it is any number 31-75, it is set aside; you are looking for the first number out that falls between 1-30 (for example, if G-54 came out first, set it aside). If I-23 is next, 23 is the winner, because it fell between 1-30. Three players who are holding the number 23 red, blue and green tickets for that game would win.

If you do not have a paddlewheel or a bingo cage and would still like to play this game, YOU CAN! We have a built-in seal on the flare that can be popped open after all the tickets have been sold. Under that seal will be a number from 1-30. Use that seal as your selection device to determine the winners.
